

I urge you to reject NAB's petition 04-160. I am a customer of XM Satellite Radio and benefit from the valuable services provided by them, which include the traffic and weather channels. It is great to be able to have immediate access to this information when I'm traveling around the country. I don't believe that it should be up to the National Association of Broadcasters to dictate what I am permitted to hear on services that I subscribe to. Thank you for your consideration.
